Spring Summer 2024

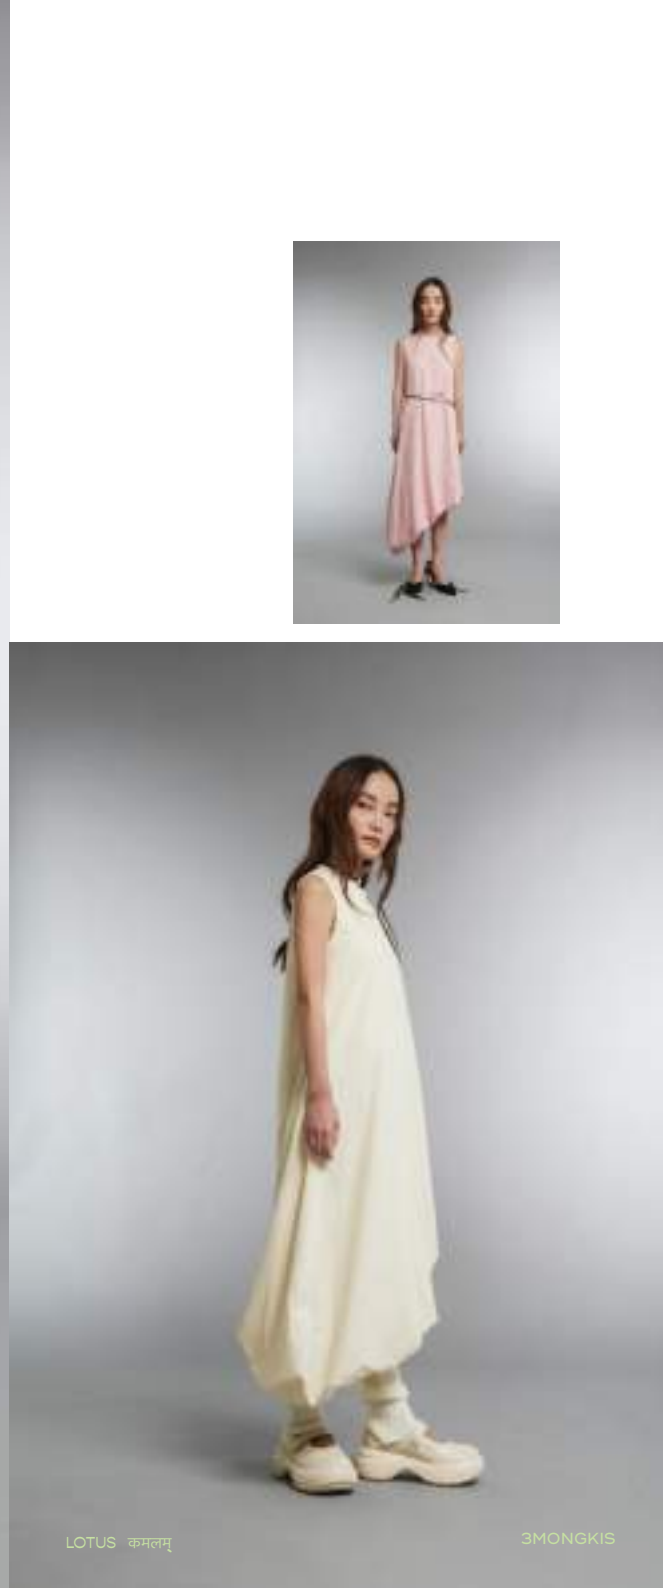

Inspired by the lotus flower, the Spring-Summer 2024 collection by 3MONGKIS merges the brand's signature relaxed and contemporary silhouettes with organic shapes and lines, thereby elevating each piece in this collection.

The lotus flower, originating from ancient civilizations, holds great sacred significance in Asian cultures. Symbolizing purity, resilience, and wisdom, its unique shape and colors also highlights its existence as an awe-inspiring beautiful creation.

As the lotus unfold its petals, it showcases a spectrum of captivating hues, from delicate whites to vibrant pinks, which inspired the collection's colors, with accents of brown, green, grey, and black as complementary shades.

Beyond its physical beauty, every part of itself -seeds, roots, petals- also brings significant advantages. Thus, the collection is designed with great consideration, and each piece has been crafted to effortlessly complement any outfit for various occasions, whether dressed up or down. Similar to the lotus flower's adaptability, we aspire for this collection to exude versatility.
