

IKYK

SPRING/SUMMER 2024 COLLECTION

IKYK Spring Summer 2024 collection falls sincerely commixture rhythms that highlight classic pieces with audacious individuality. We wish to create an all-encompassing collection this summer to bring powerful reality to clothing with better thought, and execution, and to convey our unique features. IKYK has always been dedicated to all kinds of creative construction and desire with longevity and style as a brand with a hybrid aesthetic countenance.

This collection offers a wide variety of unique elements that go well with our summer attire, that incorporate stripes with cutting experiments while preserving the IKYK aesthetic. For main pieces, we aim for some perpetuation with our classic pieces by combining vibrant hues like lime and pink garments to favor contemporary apparel that is both fresh and appealing. Also using plaid fabric to polish the mature attitude through pattern. The fabrics used are such as cotton twill, chiffon, polyester, nylon, and semi-wool, crafted and focused in our special treatments as our signature theorem. 'Pleats' are always the top accentuation to showcase our personality in our ingenious design, this time focusing on silhouette structure and color choice, Our signature style is defined by striking shapes and vibrant colors, and we take dignity in incorporating pleats as a unique feature that sets our clothing apart.
